10th July 2021

The Animals in Need Foundation [AINF] is a local registered charity[1] that works together with a large number of pounds/ shelters and other charities/ organisations [local and international], our aim and relentless dedication is to save as many abandoned and unwanted animals we can.

This is a continuous mammoth and disheartening venture for us because for every animal we successfully rehome, there are always five added to our endless list.

We could not do this without the invaluable financial assistance from our many sponsors and the fund raising generated from our AINF team through monthly quizzes etc.

This time round, and considering the increase in temperature and that the summer is already upon us, we will be organising a charity swim at the GASA indoor swimming pool on Saturday the 14th of August 2021.

There will be two lanes allocated throughout the entire day [9am – 6pm] for those who wish to give 30 minutes of their time for this worthy cause. Each swimmer will be provided with a sponsorship form to generate as much as they can from you and everyone they seek.

So please, give generously and help us provide safe and loving homes to those that have been neglected, unwanted or abandoned. You can make a difference!

Thanking you for your support.
